

WE WILL

NEVER STOP

INNOVATING FOR A
HEALTHIER WORLD

There is much to be done in healthcare, and when it comes to COVID-19, we are leveraging our resources and expertise in ways that can make a real difference. For example, we're equipping front-line workers with our state-of-the-art, mobile X-ray and point-of-care ultrasound systems to facilitate diagnoses and help prevent spread of infection. In our further contribution to ending the pandemic, we're accelerating clinical trials of our antiviral drug. We are also expanding our contract bioprocessing facilities and strategically making partnerships to help ensure, through our manufacturing capabilities, a steady supply of vital medications and vaccines are available for people around the world. As long as there are healthcare needs to be met, we will NEVER STOP.
